For Motorized & Non-Motorized Doors

# A Safety Investment that pays for itself

**Protects lives and equipment from injury, damage and downtime!**

## **Effective**

The **BrinkAlert LED Safety Light Systems** are designed to create awareness of a potential hazard on your loading dock. Bright LED lights change colors (Red, Green, Amber, etc.) to signal safe action. Lights can be solid and/or flashing... the choice is yours!

## **Customizable**

Our **original patented LED Controller** is the Brain of the System. It was designed & built in-house by our highly-skilled Engineering Team who stands ready to help craft a **custom-designed** solution that best suits your application's needs.

## **Durable**

Our **super-tough IP68-rated** LED light strips, marine-grade wiring, and stainless steel hardware ensure long life even in the harshest conditions. Can endure temperatures from as low as -60°F up to 165°F. Our **3-year warranty** is the best in the industry!

## **Supported**

Our **unique cutting-edge technology** makes your old or new doors safer than ever. Field programming of our patented LED Controller is quick and easy. Our outstanding technical support staff ensures that every project a success.
